Bob Errett our speaker

Williamson our newest member

Robert Errett was our speaker today. He spoke about different ways in which we can be educated. One example of learning for him was trauma. He gave his testimony about how trauma and personal tragedy have shaped him into who he is today. He talked about his involvement in many local groups. Some examples would be speaking with the County Commissioners about mental health issues, serving on the board of WCA, working with Unity in the Community for SWPA and teaching prevention programs within 16 Westmoreland County School Districts. We appreciate Bob's dedication to these local entities.
