TODAY'S PROGRAM:

Gary Smith from Redi Safe, an alert system, was our speaker today. Gary has been representing Redi Safe since 1988. He explained that there are different options to choose from. Depending on your life style, you may choose ones that work through a landline which has a radius of approximately 300 ft around your home. There are also cellular base options, Mobile Alert options that go everywhere you go, and a Fall Detector option that is helpful for those that may be a fall risk. Gary explained that although cell phones can be beneficial, they may not be accessible at the crucial moment and they are not designed for pinpoint accuracy. Please reach out to Gary Smith for further details if you, or someone you may know would need this added protection.
