TODAY'S PROGRAM:

Michael Rozell introduced Kelly Bender from the Mosaic Community Development Center. They are located in Jeannette. This began in 2012 as a soccer camp. In 2022, the After School program started. They have had much growth in the last 3.5 years and now attend to over 300 kids throughout all their programs per year. Some of the services they provide are academic enrichment, STEM projects, social emotional learning, guest speakers, art projects and transportation to and from the program. Food is also provided to all of the kids. They are always happy to accept mentors. You can visit www.WeAreMCDC.org for more information.
