TODAY'S PROGRAM:

Rod Funderburk from C.A.R.T. was our speaker today. C.A.R.T. stands for Coins for Alzheimer's Research Trust. This fund is dedicated to funding cutting-edge, high-impact research to find a cure for Alzheimer's Disease. They collaborate with more than 600 Rotary Clubs in 50 Rotary Districts around the US. 100% of all donations go directly to research.

To date, they have given away $20 million. They fund the bright ideas so the scientists can prove their point. They then go to the deeper-pocketed founders. As a reminder, these donations are separate from the Rotary Foundation.

Alzheimer's is the 3rd leading cause of death, behind cancer and heart disease.
